2013 PAIMA ECOLOGY AWARD

Each year PAIMA recognizes the member who, through "green" education and earth-conscious business practices, has exceeded all others in driving its commitment to protecting the environment. The PAIMA Ecology Award will, once again, draw attention to the need for environmental awareness within the moving and

relocation industry, and foster a higher standard of environmental responsibility among all members. If you believe that your company has gone above and beyond in 2013 in doing its part to preserve the planet, we encourage you to apply for this prestigious award by clicking the link below. **All submissions must be received by August 1, 2013.**
